## Session 1

# Growing Faith

What are the keys to children, young people and families growing in faith? It's one of the many questions those of us who serve in these contexts are regularly grappling with. The Faith in the Nexus research (2020) found that when church, household and school are connected and working together, children, young people and families stand the best chance of encountering God and growing in faith.

Growing Faith is a movement within the Church of England, that seeks to instinctively place children, young people and families at the heart of our ministry and mission. This session will consider what that might look like.

**Cheryl Govier** is currently a part-time adviser for the Diocese of Bath and Wells and the part-time Partnerships Lead for the Church of England's, *Growing Faith Foundation*, overseeing Learning Hubs across the country. In her spare time she is a keen hockey player and runner!

## Session 2 (Children)

### **Growing Faith and Children**

Children are full of curiosity, with an openness to faith and God. How do we effectively connect the spheres of church, household and school to help them explore faith and encounter God? What role do parents, carers and households play in this journey?

This workshop will practically explore ways in which we might grow faith in children, so they can experience all God has to offer them and see their lives transformed.

## Session 2 (Youth)

### **Growing Faith and Youth**

How do the spheres of church, household and school connect and overlap to help young people grow in their faith? Often we place a significant emphasis on the groups and sessions we run in churches and schools, but what other ways can we disciple young people?

This workshop will practically consider how we release church, household and school to help our young people to encounter God, grow and thrive in their faith, and ultimately know what it is to live life to the full.
